

**AGENDA ITEM 10.i**

Revised Board Policy No. 6027 *Tuition Wavier and Reduction*

**RECOMMENDED DIRECTIVE:** The board hereby approves the revisions to Board Policy No. 6027 *Tuition Wavier and Reduction*.

**DISCUSSION:**

**Reason for the revisions to this policy**

Some changes in this policy are necessary to reflect recent changes in the college that affect this policy. Particularly, the *Board Policy No. 7001 College of Micronesia-FSM Facilities Operation and Maintenance Fund* requires facilities fees as an addition to existing students’ fees.

It is recognized that there may be other additional fees in the future and to avoid resending the policy again for each additional fee imposed, this language is developed to capture all future fees: *“All other fess applicable to all students are waived for the employee but not for the employee’s dependents.”*

A correspond definition is also attached to defined these fees and references future fees. *“Other Fees: Health, activity, technology, facility, and other fees that may be imposed to all students outside the registration fee.”*

The other changes are simple numbering of sections to update the format and make it easier for users to reference difference sections of the policy.

**Desired outcome of the recommendation**

With the addition of two changes recommended above, this policy reflects updated policy elsewhere in the college and other future fees that may be added in the future. This makes the policy current, correct, and linked.

**Approval process followed**

The policy was reviewed and endorsed by both Human Resources Committee Staff/Faculty Senate Spring 2018. The final version was reviewed and endorsed by Executive Committee on \_\_\_\_\_

**Proposed implementation date**

It is recommended that the effective date shall be the date the board approves the policy.
