April 4, 2018

## **SPECIAL EDITION:** **25th Anniversary Celebrations** **on Chuuk Campus**

We completed our 25th anniversary celebration last week (March 24-28), and it is time to reflect on what all of us did to make the event a success.

Our Dean Kind Kanto said in an e-mail message on March 30, *"We have successfully completed our celebration of the 25th Anniversary of the Founding Day of our college, and the celebration of our Culture. Nothing could be possible without you all. I sincerely would like to thank all of you for the efforts and dedications put into the different activities and festivities. It was another evidence of how great we could be when we put our heads, hearts and hands together. I sincerely appreciate you all, and thank you all very much."*

A great deal of gratitude goes to everyone. The celebration committee, chaired by Roger Arnold, had to put together the various activities into a single thrust of fun. And, yes, it happened well. Also, student coordinators and participants were, of course, successfully engaged in the activities. They were the reason for all the activities — to celebrate. After all, student success is our success. ☺

**2018 King Don Gabriel  
and Queen JoMarina Kasian**

## WORD GAME: ADD A LETTER TO MAKE A NEW WORD

English builds on itself. Start with a letter from the English alphabet, add another letter to make a new word, and so on. For instance, start with the letter T. Add another letter A to make the new word AT. Then add another letter S to AT to make a new word SAT. Then, add the letter R to SAT, re-arrange the letters to make the word STAR. And so on, and so on.

Below are seven examples of this word game. Just add a new letter each time and re-arrange the letters to make another English word. It is just that simple! Try it out:

- (1) A AS SAW WARS \_\_\_\_\_
- (2) A AM DAM MADE \_\_\_\_\_
- (3) R OR ROT TORN NORTH \_\_\_\_\_
- (4) O TO POT STOP POETS \_\_\_\_\_
- (5) M ME MET TEAM STEAM \_\_\_\_\_
- (6) S AS HAS CASH CRASH \_\_\_\_\_
- (7) A AT ACT CART TRACE CREATE CREATES \_\_\_\_\_

Now, that was not hard at all, right? Were you able to solve all six? If not, just go to page 6 for answers. ☹
