COURSE MODIFICATION REQUEST

ED/PY 300 Education Psychology
Course Number and Title

Education Division
Department

ED/PY 300 Education Psychology
Course Number and Title

Education Division
Department

New Course Objectives: N/A

New Course Description: N/A

Justification for Revising the Course:

Notice was received by the Bookstore that the current text is out of print. A new text will need to be ordered for the spring 2009 semester. Several possible textbooks were reviewed. The one being recommended best aligns with the course objectives. This text is also the one being used at the University of Guam (UOG). Using the same text for a basic foundation course such as Education Psychology should serve to further enhance the alignment of our outcomes with the UOG course. The only change being proposed at this time is the section of the course outline relating to Textbook. (See attached revision.)
