Educational Technology for Teachers COMW Tilae
ED 204 neparbneA and x,mba

Course Description:

This course will assist educators to integrate basic technology into their classrooms. The primary focus will be on assisting educators to "make the link" to the internet and apply its practical uses to the classroom with the intention of increasing student interest and achievement. Attention will be given to the use of this technology to enhance curriculum and professional development as an educator. The goal is to develop the confidence and comfort necessary to make technology an embraceable tool for great teaching and great education.

Course prepared by: Lonaine Miller-Nara State: National Campus
