Justification for Revising the Course:

**Currently, the business division is using the one textbook for Accounting I and Accounting II classes. Accounting I covers the first ten chapters and Accounting II covers the latter chapters. However, the division thinks that this is not fair for the non-business/accounting major students since they do not need to take Accounting II. Therefore, the division has searched and found that there is another textbook that covers only the first twelve chapters and cost much less compare to the current textbook.**
