

There's  
room for  
you on our  
team...

...declare  
Marine Science  
as  
your major!

## What you will learn as a Marine Science Major!

- Marine Biology
- Oceanography
- Chemistry
- Aquaculture
- Field Research Methods
- Fisheries Management
- Micronesian History
- Ecology ... and more!

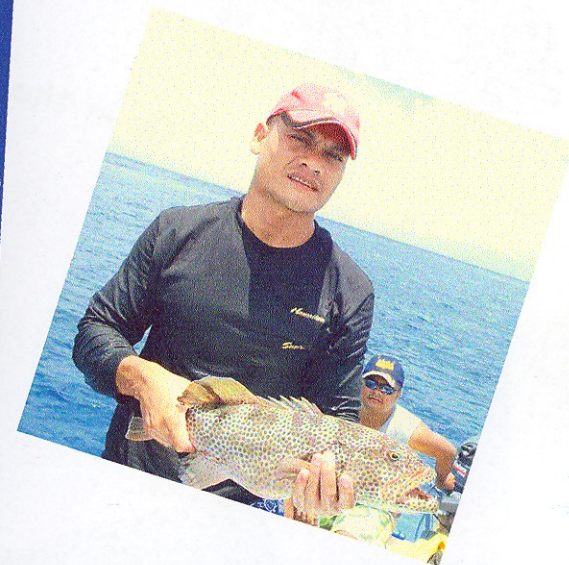

## *The Marine Outlook And you*

Our students have exciting summer internship opportunities in Hawaii, Alaska, and the FSM. While other sectors are slowing down, the job outlook for those studying marine and environmental sciences is strong. Worldwide focus on coral reefs, mangroves, and global warming means you will be able to find a job!

College of Micronesia-FSM

# ***Marine Science Program***

National Campus, Palikir

Join the Marine Science Program  
and help to preserve, protect,  
and understand the natural  
beauty of Micronesia

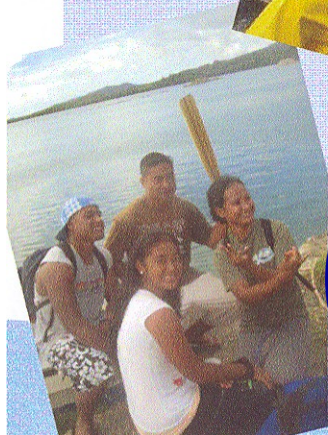

*In the field*

*Or in the lab...*

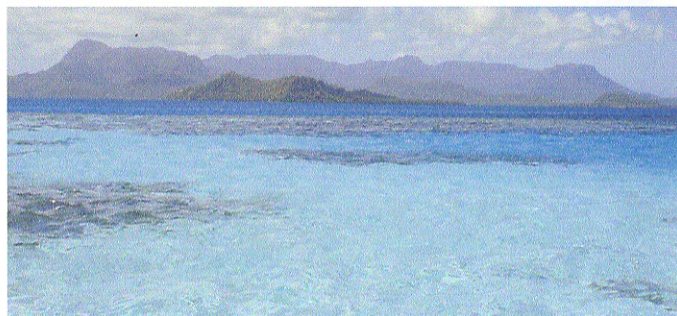

**Marine Science Students**

*In Action...*

## PROGRAM OVERVIEW:

The marine science program is designed to respond to a need expressed by the FSM leadership in the FSM States and National Economic Summits. It has been designed to take full advantage of the unique variety of marine environments available in the FSM, particularly Pohnpei. This program provides a solid foundation for students interested in pursuing a higher degree at a four-year institution.

The College of Micronesia-FSM (COM-FSM) at its national site in Palikir offers an Associate of Science degree in Marine Science (AS in Marine Science), a two year program providing a solid foundation for either transferring on to other colleges and universities for a Bachelor's Degree, or finding an exciting career here in the FSM! Our graduates may choose to transfer on to University of Guam, University of Hawaii, other college systems in the US and abroad, or begin an exciting career here in Micronesia.
